Dear colleagues,

We have a crucial report to deliver in less than two weeks covering the entire year we have been working on the SIGHT project. I am creating this thread to coordinate our efforts.

I have already started working on this report by cleaning up the template, filling in some information, and completing one section. You can find the working document at: <https://docs.google.com/document/d/1UUgVFrBJItSW2jQtzohMnrqhHu9zv4Ao/edit?usp=sharing&oid=108436200354031121782&rtpof=true&sd=true>

The original, raw template is available at <https://docs.google.com/document/d/10-5LZzwM2K6IrdS6Hmtp9a6nlvDDITzg/edit?usp=sharing&oid=108436200354031121782&rtpof=true&sd=true>

There are 18 remaining sections we need to complete. The good news: we have finished pretty much all of them previously; we simply need to update what we wrote in **Q1**, **Q2**, and **Q3** reports. Given that we are the project leaders, I hope to spread the pain relatively equally among all. Based on my limited understanding of each one's roles in this project, you will find below my suggestion for who should work on what (feel free to suggest changes). I know this is short notice, but please let's finish everything by the end of this Thursday, 07/09, so we have one week to fine-tune the report. Obviously, we should all leverage AI, but please let's avoid sloppy copy/paste answers, as this usually means someone will have to fix the mess later (very often, this falls into Fadel's lap).

- 1. PROJECT SCHEDULE STATUS
- 2. TOTAL PERCENTAGE OF PROJECT COMPLETION
- 8. ADMINISTRATIVE STATUS OF PROJECT
- 9. PROJECT BUDGET STATUS

Arthur:

Best regards,
Arthur
